MONITOR, ALBERTA, FRIDAY, FEBRUARY 13 1920.

NO. 8

## Hayes Wins out in Benefit 'Spiel' Lucas Wins the Consolation

### Canadian Livest'ck

Livestock on farms can be most profitably increased through an expansion of Canadian meat export trade. An improvement in the quality of the live animal will be necessary if Canada is to get into a foremost place in the big European markets that are ready for our national products.

The Ontario Department of Agriculture and all concerned have started a campaign to sweep out the scrub bull from the herds. Only by producing the best meat can livestock farming get highest prices.

In the Maritime Provinces, where livestock is not sufficient in number to support modern abattoirs and cold storage farmers who do raise cattle and hogs have to pay long freight hauls or suffer the waste of old fashioned butchering, resulting in lower prices than where these facilities exist.

Exports are the best means of paying Canada's war bill according to the Minister of Finance. There could be a large increase in the exports of Eastern Canada were the livestock on farms of better quality. Wide-awake farmers will know where their future money lies.

The farmer in Ontario is rapidly being convinced that his interests are identical with those of the packer who is the manufacturer of meat from what he grows and who is also the largest buyer, year in year out of the products of his farm.

Canada exports to-day sixteen times more bacon than before the war. With equal skill the same results could in a few years be shown for other products of Canadian livestock.

### CHURCH NOTICES St. Laurence Church

REV. W. S. WICKENDEN, R.A., L.T.H.  
PASTOR.

Divine Service every Sunday, 7.30 p.m. Holy Communion on the first Sunday in the month.

Sunday School, every Sunday 12 noon.

Choir Practice, Thursday and Saturdays, 8 p.m.

The annual Service for the Curling Club will be held, Sunday February 15th at 7.30 p.m. All Curlers and their friends invited.

### Weekly Discussions

There will be no meeting of the co-operating congregations until Sunday, Feb. 22 at 1 p.m. Discussion group meets at 12 the same day.

Tomorrow the pastor goes to Kirriemuir by train, returning on Monday. Next Sunday at Kirriemuir Sunday School and Adult Bible class at 11 a.m. and Service at 7.30. Rev. J. Wright

The excitement attendant upon one of the brightest and best Bonspiels ever held in the locality is now over, and the rink has now relapsed into the ordinary run of schedule games.

This 'Spiel', put on in a very worthy cause attracted widespread attention and comment, and it is safe to say that it will not be the last of its kind. The weather, with the exception of the last day, proved to be all that could be desired. The ice was in dandy shape all the time except on the Saturday when the snow, drifting in from the roof, caused the players' hole of healthy work to keep the ice clear for the rocks to clear the hog-line.

There were sixteen rinks in all entered in the Grand Challenge and in the semi-finals Skips Mackenzie and Matheson; Deadmarsh and Hayes were killed to play off. Messrs MacKenzie and Deadmarsh went down to defeat which left Matheson and Hayes for the finals. After a closely contested and exciting game Ship Hayes went out by points, thus winning the Grand Challenge Froze value at \$2. Mr. Matheson taking second, \$4.

In the Consolation event, eight rinks entered, and skips Lucas and Gould; Bergman and Horsch reached the semi-finals. Gould and Bergman took the count, which left Lucas and Horsch for finals, Lucas winning the event.

Hot Tea and coffee was served at the rink while the games were in progress by the Monitor W. A. An interesting feature of the games was that each rink had a lady player, who played third, and a green man in each rink played lead. It must be remarked though, that the ladies showed wonderful skill in handling the rocks in every case, and a splendid example of clean sportmanship governed their play throughout the tournament.

The amount collected in fees at 25 cents per game, per player amounted to \$44.00, of which amount \$20 was spent in prizes, and the balance donated to the Church for the purchase of Coal. Grand Challenge prizes, \$8. and \$4. Consolation \$5. and \$3.

Every participant in the Bonspiel got their money's worth, we are sure of that, and judging by the comments expressed from time to time the time is not far distant when we shall have another affair of a similar nature. Hores hoping.

The Ladies Aid are giving a Mens Supper at the Rest Room on Wednesday Feb. 18 at 7 p.m. A cordial invitation is extended to all the men. All kinds of good things to eat. 50 cents per plate.

### ALERT ALTARIO

The Schoolhouse was well filled on the occasion of Editor Serbury's Travelogue Lecture on his great Hike of 8888 miles which he called the Great Triangle starting from New York to San Antonio thence to Seattle and back home. The children sang an original song to the tune of the "Long Long Trail" and thus introduced the lecturer. The audience gave him an attentive hearing and learned at first hand of the many adventures he and his scout son had on route. After the lecture dancing began and was kept up till a late hour next morning, a large party of Kirriemuir folk sleighed over and all pronounced the dance and supper a great success. The musical members were given by the children, who by request repeated the Prince of Wales Song and Miss John Bethans delighted everyone with her songs and Miss Evans of Kirriemuir, who has a beautiful clear voice of great range, secured a enthusiastic encore.

Tobogganing is the great sport of the evening and if one may judge by the screaming fun of the noisy youngsters there is a good deal of sport to be had coasting down the big hill Yes, Mrs. Grundy, everything is coming it fast.

The snow has been drifting pretty badly here and there and the trails are therefore difficult for our country friends to travel over to church possibly this is why the attendance is so meagre. The last discourse on the Forward Movement of the Methodist Church was given by our Pastor on Sunday evening when he took up the subject of Missionary Work, specially mentioning the fields in China and Japan and making an earnest appeal for more support for the coming year.

The W. I. holds its monthly meeting at the home of Mrs. McLeod when Rev. Amos will deliver an address on "Home Life Master Key". This meeting will be open to all those who are not members are cordially invited to attend. We think it only fair to fathers to ask them, too, as they are the Heads of the House.

Altario talent will be seen at its best in the humorous dialogues to be given on the 20th. There will be plenty of comedy and when we tell you some of the gowns ups are acting you will know there will be lots of fun. Come and hear who benefitted under "Uncle Joe's Will" and take a tis from the courtship scenes in the sketch "Courtship under difficulties" of course incidentally you will our hospital by so doing.

The last dance of the season is to be a masquerade and all hope it will be a record attendance. It is under the auspices of the Business Men's Club, a

## Grand Concert Fulfills Expectations. Good Crowd Present

### Local Happenings

Born.—To Mr and Mrs Frank A. Crothers, of Carleton Place, a son on November 27th 1919.

R. A. N. Craig suffered a painful accident on Friday of last week. He was unloading a load of coal into a shed, when his foot slipped on the edge of the drey, and in saving himself from falling to the ground, he put his hand out to steady himself, against the wall of the shed. His hand hit the wall with sufficient force to shatter one of the small bones of the first finger of the right hand.

### Monitor Next?

The young men of the town of Erskine have organized and made the necessary arrangements for the formation of a gymnasium club. Arrangements are being made with the Calgary "Y" for securing equipment. Erskine Review, Jan. 29

Last week we published the news that Sir Edmund Walker was the President of the Dominion Bank at Toronto. We are now informed that Sir Edmund is the President of the Canadian Bank of Commerce, and not as stated.

The Agency for the Liverpool and Manitoba Assurance Company and the Canadian Security Company has been secured by H. A. Warner.

A happy and pleasant time was spent at the home of Mrs. V. Hill on February 2nd 1920 when a number of friends gathered together to congratulate them on the successful completion of the Tenth Anniversary of their wedding.

Monitor W. A. meets at the home of Mrs. J. A. Hayes on Thursday February 19th.

Messrs McCarron and Blair were hauling hay this week.

According to an exchange, there are in the districts of Green Glade and Sulphur Springs (about 35 miles from Monitor) some thirty cases of Influenza. To date there have been no deaths resulting from this dread disease, but is well to remember that wiskey played an important part in combating last years epidemic. therefore when your bottle arrives put a large proportion of it away in case of emergency.

Messrs Deadmarsh, Todd, MacKenzie and Horsch went to Coronation at the beginning of the week, to take part in the Bonspiel at that point.

Mr. Fred Karroon, representative of the Hartford Insurance Company was a business visitor in town on Wednesday last.

Dr. Mecklenburg, the celebrated optician, will be in Monitor at the Hotel, on Thursday and Friday, February 12th and 13th. From 3 p.m. to 3 p.m.

The Concert held in the Big Hall last Friday turned out to be a brilliant success from every standpoint. The weather man did his best to give us ideal weather, the trails were in good shape and everyone was in good humor at the appointed time. A little delay was experienced at the start of the programme, caused by the late arrival of some of the artists and the audience grew just a little impatient. However, eventually the late-comers arrived and the concert started. It is impossible to enumerate each and every item on the programme, and equally impossible to mention the "best" number. Every item was rendered splendidly, reflecting the greatest credit on the performers. A unique part of the programme perhaps, was the community singing, introduced to Monitorians by Mrs. V. M. Kay of Kirriemuir. This item took splendidly in spite of the somewhat adverse criticism it received prior to the concert. Two travelling musicians also contributed an item to the programme consisting of an accordion solo with guitar accompaniment, which was well received.

One outstanding feature was the magnificent number in which Mr. J. H. Galbraith, of the local Bank staff accompanied the different singers through their various pieces. His rendition of the accompaniment to the duet "Excelsior" proved without doubt that Mr. Galbraith is a musician of the first water. It is indeed a pleasure to be conveyed through a song by such a master as he.

Taken by and large this concert was splendidly gotten up, splendidly delivered and splendidly received, leaving nothing to be desired, save the hope that we may have more of them. Such a display of local talent makes one think that there is a wonderful opportunity here for more of the same kind. Apart from the money-making side of the question, it must be satisfactory to all concerned to know that such an affair is possible at any time.

The Monitor W. A. desire to express their thanks and appreciation to all who so kindly contributed to the success of the concert.

Following the Concert, the floor was cleared, and the followers of Terpsichore indulged in tripping the light fantastic until about 1.30 a.m. to the music furnished by the Monitor Citizens Band. It is well to mention here for those who were not present when the announcement was made, that there is to be a dance in the Big Hall on February 27th. The music will be furnished by the two French artists who appeared on the stage (Accordion and Guitar) during the concert. Admission \$1.

## If Thin, Nervous, Run Down, Depressed, This Will Help!

The wear and strain of life has tended in recent years to produce nervous debility in a large percentage of our population.

Thousands are affected with a feeling they can't exactly describe. They are always tired and droopy, lack ambition, have poor appetite, look pale and suffer from depressing headaches and insomnia.

This condition is full of peril. It is the stepping stone to invalidism, the beginning of a shattered constitution.

We advise everyone in this condition to take a good medicine at once and try to get well while yet there is time.

Probably no better advice can be given than to use Dr. Hamilton's Pills, which have become famous in restoring the sick to good health. A general toning up of the system at once takes place. The whole body is vitalized by rich and purer blood. The appetite is increased, food is digested and naturally strength rapidly increases. Headaches go because the bowels are regulated and all wastes are carried off.

There is no experiment about using Dr. Hamilton's Pills because they certainly restore the sick, as a trial will quickly prove. Just as good for the young, and equally suitable to the needs of women and children. This grand family medicine should be in every home.

## The Reason Why An Airplane Flies

Air Has Lifting Power Similar to Water, Only Air Is Lighter.

The average person on seeing an airplane soar gracefully into the sky has doubtless wondered why it is that it stays there, and does not fall to the earth, as other bodies do, says Lieut. Norman Clark in Pearson's Weekly.

The first thing to grasp in the understanding of flight is that air has a lifting power similar to that of water, only air is lighter.

Now, if you place your hand under water, and, tilting it slightly upward, drag it along level with the surface, you will notice that it has a tendency to rise. Similarly, if you take a piece of paper, hold it at a slight angle, and drag it quickly through the air, you will observe that it also tends to rise. The faster you move it, the more it rises. This simple fact forms the basis of airplane flight.

The reason the piece of paper acts as it does is twofold. Firstly, because the inclined surface has a tendency to glide on the air underneath it; secondly, because in cutting its way through the air it has displaced some of the air about it, and thus caused the air underneath to rush up and take its place.

Above the inclined plane a vacuum is created; below it is the air on which it glides, and which is endeavoring to rush up and fill the vacuum above. The result is that the plane is forced upward. Such is the principle of flight.

In place of the piece of paper there are wings consisting of airtight fabric. These wings are so constructed that they not only glide on the air beneath them, but also displace the air above them.

They glide on the air beneath them because they are set at what is termed an "angle of incidence" (which means that they are slightly inclined to the air they are meeting). The displacement of the air above is increased by constructing the planes so that the upper surface is curved, and thicker towards the front than the rear.

When the speed at which the wings are passing through the air becomes sufficient to enable the "lift" created to overcome the counteracting force of gravitation, the machine has "flying speed." Hence, the first thing necessary in order to rise from the ground is for the machine to have sufficient run to attain "flying speed."

Aeroplanes are so constructed that when the engine is running full

out, the forces of gravity and lift are pulling directly against each other. When the engine is stopped, the centre of gravity falls slightly in front of the centre of lift, thus permitting the machine to assume a gliding angle. It is thus enabled to land without losing flying speed, and with the maximum forward travel in proportion to the height lost—in most machines about ten feet forward to every one foot descent.

## The Science of the Future

Sir Oliver Lodge Talks of the Life Beyond

Sir Oliver Lodge, the British scientist, addressing an immense meeting in Carnegie Hall, New York, reiterated his belief that the living are separated from those who have gone to the other side only by a veil of the sense, which is unreal, that there is no gulf but, only, perhaps, a chasm, which is bridged by love. He said that those who remain on earth should not be sorry for those who have left, because of the joy and happiness existing in the beyond, and because those beyond look back and watch over those remaining here.

"My message to you," he said, "is that those who have gone through the veil are all one family. The partition is not a real partition. 'It is a veil of sense.' The other life is all around us. The brain is the screening organ. During our short period on earth we have practical work to do. If our minds were centred on the glories beyond we could hardly attend to our work here."

"We are guided and helped through the unseen, and many a prophet and saint has been aware of this. The highest communicate with us through messages and signs. It is a fact that the saints and prophets of history have not been fooled. We trace the grades of existence beneath us, but not above us. But it is a spiritual universe and its existence is the foundation of all existence. We ought not to allow ourselves to be limited to what allows us to do our daily work. 'The science of the future will be a message to humanity whereby the results which have been obtained by the few will mean access to the many. The peak from which these things are visible has been reached by people who do not climb, but who ascend by—balloon or inspiration—whatever you like to call it. We workers in science must construct a road, up which others may grope.'"

## Visiting the Battlefields

Treating the Ghastly Evidence of Human Agony as a Show

Kipling has made an appeal for a more reverent demeanor on the part of visitors to battlefields in France. The London Observer says that the traveller in France feels a shock when he sees on the boulevards great posters advertising motor trips to the devastated regions. Returned trippers will talk of having "done it all," treating the ghastly evidence of human agony as a show. Next year it will be worse. "Tourists by the hundred thousand are expected from the ends of the earth, all agape to see how and where men died for their ideals." It is charitably admitted that the fault is due to want of thought rather than to want of heart. But for want of thought there will be less excuse after this rebuke.

Another writer, in more sarcastic vein, says something to the effect that the sightseers in order to realize even part of the meaning of what they see ought to stand in mud or cold water all day and sleep in barns at night. It is doubtful whether the mere sight of the battlefield is a great help toward realization. More is to be learned by reading some of the poems and other writings of returned soldiers or by conversing with them. "Stop, for thy tread is on an empire's dust," said Byron, in opening his great poem on Waterloo. Dust more sacred than an empire's lies buried in France and Flanders; as the ideals for which these men died are greater than any imperial dream. —From the Toronto Star.

Holding His Own  
"Hello, old chap! What do you know today?"  
"Nothing—absolutely nothing."  
"Well, cheer up. You're holding your own."—Judge.

EGYPTIAN LINIMENT

For Sale by All Dealers

Douglas & Co., Proprietors, Naperville, Ill.

Gold and Silver Output

Since the year 1904, when the province of Ontario became an important producer of valuable metal, the silver mines of Northern Ontario have produced approximately 303,724,172 fine ounces of silver valued at \$181,570,561, and the gold mines have produced 2,872,680 fine ounces valued at \$59,389,508.

## Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Ouch! ? ! ? ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezezone when applied to a tender, aching corn stops soreness at once, and soon the corns drop up and lifts right out without pain.

He says freezezone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of freezezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

## New Decision on Status of Aliens

The Appeal Court in London has given an important decision on the status of an alien under the laws of the empire. The appellant was Heinrich Herman Markwald, who was born in Germany, and settled in Australia in 1908. He obtained a certificate of naturalization and went to England at the outbreak of the war, and was required to register as an alien under the Aliens Registration Act. He refused and was prosecuted and convicted by a magistrate. On appeal, the divisional court upheld the conviction. The appeal court held that the appellant had not ceased to be an alien in London by virtue of his Australian certificate of naturalization and dismissed the appeal.

## Reduced Rates

Judge: You are guilty of assaulting a man wearing glasses. I fine you \$10. Defendant: But, Your Honor, the plaintiff wore only a monocle.

Judge: Then your fine will be but \$5.—Washington Star.

## Is Your Nose Plugged? Have You Catarrh?

If Subject to Colds, Here Is Real Good Advice

Don't load your stomach with cough syrups. Send healing medication through the nostrils—send it into the passages that are subject to colds and catarrh. Easy to do with Catarrhazone, which cures a cold in ten minutes. Even to the lungs goes the healing vapor of Catarrhazone—who through the bronchial tubes, nostrils and air passages—everywhere a trace of disease remains will Catarrhazone follow. You'll not have colds, nor will you suffer from sniffles, bronchitis, or throat trouble if Catarrhazone is used. Get it today, but beware of dangerous substitutes meant to deceive you for genuine Catarrhazone. Large size, two months' treatment, costs \$1.00; small size, 50c; sample size, 25c; all dealers or The Catarrhazone Co., Kingston, Canada.

## Mean Insinuation

"Dad, did you fall in love with mother at first sight?"

"Yes, my boy. But it was a year or so after we were married that the doctors discovered that I should have worn glasses much sooner than I did."

## PILES

Do not suffer from day with itching, bleeding, or burning. Use Dr. Chase's Ointment with Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and can be used by men and women. Get it at all dealers or Edmondson, Blake & Co., Limited, Toronto. Sample free. Send five-cent stamp to pay postage.

## Changing Status Of Afghanistan

New Rules Negotiating With Russia's New Government

For a long period before the war Afghanistan was practically a British outpost for India. The Amir governed the country as he thought well; but, for the better protection of India, the British restricted the Afghans from alliances with foreign powers. Indeed, the foreign affairs of the country were practically under British control, and for this right of restriction a handsome subsidy was paid annually to the Amir. Shortly after the war ended a new Amir reached the throne of Afghanistan as a result of the assassination of his predecessor and the new ruler invaded India and apparently expected a rising in India to occur simultaneously with his invasion. In this he was disappointed, and a British-India army of a quarter of a million men met him near the border. There was some fighting, after which a new arrangement was made, under which the British subsidy was withdrawn and the Amir left free to control his own foreign affairs. The collapse of Russia is given as one reason for this concession, but another explanation is that Britain requires all her military resources in the Far East to hold India itself in subjection. Meantime the new Afghan ruler is said to be negotiating a new treaty with the new Government of Russia.

People who fish for compliments do not need long lines. They will get their best bites in shallow water.

Every man is capable of doing his best and it's up to him to do it.

## RHEUMATISM

This is just the season when rheumatism will be grinding pain and stiffening of joints gets hold of you. Fight it with

## Templeton's Rheumatic Capsules

Templeton's Rheumatic Capsules bring certain relief, and permanent results. They are recommended by doctors, and sold by reliable druggists everywhere for \$1.04 a box, or write to Templeton, 142 King St. W., Toronto. Mailed accurately on receipt of price.

## ASTHMA

Templeton's RAZ-MAH Capsules are guaranteed to relieve ASTHMA. Don't suffer another day. Write Templeton, 142 King St. W., Toronto, for free sample. Reliable druggists sell them at \$1.04 a box.

## Airplane Telephones

London to Have Wireless Equipment for Present System

Passengers aboard London-Paris airplanes may soon be able to call up London by wireless telephone and be connected with any telephone subscriber in that city. This is to be made possible by a wireless station with a 1,500-mile range installed on the top of the new Air Ministry building in the heart of London, which is now nearing completion.

## Local Items by Holbensquash

First cousin, 2 removes of Hoo-jah-ka-bibby. Inventor of the pathetic Ballard "O., Whatanas Slam"

A banker went out hunting  
To be sure, he was very wise  
He didn't waste time in grunting.

Or scanning the clouded skies  
Instead he went to the cellar  
Of the building across the street  
And sat him down in dark despair.

And on his face a vacant stare  
And bats in the belfry rattled there  
And cats came and gnawed his feet

"Be wise when you rise and eat pies" said he,  
And snatched up his(t) rusty gun  
"I'll slaughter you cats  
Of your hides I'll make mats  
And with many a bullet scatter your slats  
Ere the rise of another sun"

Many a shot did he fire into the colored crews  
Of cats and kittens and fluff  
But this hunter so wise didn't half recognize  
That this feline quadruped possesses nine lives  
And of bullets he hadn't enough

So he waded in with his rifle clabbed  
And biffed them over the head  
And howled and yelled in fiendish glee  
Till the rifle broke right close to the knee  
And all the cats were dead

Then this hunter so wise  
Cast his eyes to the skies  
And in spite of his awful painting  
Said "the old proverb lies  
A cat never dies"  
Hereafter I'll stay with the banking.

Georgie, Porgie Puddeny Pie  
Got a bottle filled with Rye  
Or perhaps twas filled with Scotch

And while little Georgie watched  
All the nectar ran away  
Dickies turn another day

Miss— (School Teacher)  
"Tommy, you've been a bad boy  
and must stay in for an hour"

Tommy (boy of new age)  
"Well, Miss, if you don't mind  
the scandal, I don't."

Last week we had the delightful pleasure of refusing a nice fat profitable contract for advertising for the T. Eaton Company. Why? Well, we for one believe in practicing what we preach—keep the money at home, and again all of our merchants here in town can knock spot of some of Timothys prices and give you better goods at that. Read their advertisements and see what they have to tell you. Then compare the prices, and the goods, with those submitted by large mail order houses. If everyone would conscientiously do that same thing for about a month there wouldn't be any mail-order houses, the community money would be circulated in the community, profiteering would be eliminated, and Canadian money worth its face value at the least in other countries.

## Transient Ads.

Advertisements under this head are 50c. for first insertion 25c. for each successive insertion.

**FOR SALE:** One Ice Plow in dandy condition. Apply at Butcher Shop Monitor.

**Lost:** In Monitor about Ten days ago a black and tan collie pup. Finder please leave at News office or inform us.

## NURSES ADVISE

Zam-Buk, because they have proved that it does what is claimed for it. Miss M. L. Doxey, graduate nurse, of 2320 Michigan Ave., Chicago, says: "I have a patient who suffered terribly with piles. Zam-Buk is the only remedy that gave her relief."

"I have used Zam-Buk myself for the same ailment, also for sores and burns, and have the greatest confidence in it."

**Zam-Buk**

## Growing Power Of Western Canada

A recent Ottawa dispatch reveals the fact that, according to official estimates, Quebec continues to outstrip Ontario in increase in population and is steadily closing up the gap between the two provinces in point of numbers of people. This is a development which has been in progress for some years now, with the result that Ontario is gradually losing that preponderance of political power which it once enjoyed at Ottawa.

As is well known, the basis of representation of the provinces in the House of Commons is fixed by the British North America Act, which provides that Quebec shall always have 65 members, and each of the other provinces such a number as will give the same proportion of representatives to its population as the number 65 bears to the population of Quebec, and it is also provided that following each decennial census a redistribution of representation shall take place on the basis of the population figures thus ascertained.

Prior to the census of 1901 the unit of representation for all Canada was 22,900—there is each group of 22,900 people was entitled to a member at Ottawa. This gave Ontario 92 members to Quebec's 65, a difference of 27. As a result of the 1901 census, and the increase which had taken place in Quebec's population, the unit was raised to 25,367, with the result that Ontario's representation fell from 92 to 86, because, proportionately, Quebec's growth in population was more rapid than Ontario's. Following the census of 1911, the unit was again raised, this time to 30,819, and Ontario lost four more members and is now represented at Ottawa by 82. On the basis of the recent official estimates, Ontario will, following the census of last year, lose at least two more members, leaving it only 80.

Thus in two decades Ontario's representation will have decreased by 12, leaving only a margin of 15 between Ontario and Quebec, as compared with 27 only twenty years ago. The same change in position is taking place so far as the Maritime Provinces are concerned. Nova Scotia, which had 20 members prior to 1901, dropped to 18 after the census of that year, and to 16 following the 1911 census. New Brunswick fell from 14 to 13, and later to 11. Prince Edward Island from 5 to 4, and now to 3.

The opposite result is shown in the West. Prior to 1901 Manitoba had only 7 members, British Columbia 6, and the Northwest Territories 4, a total of 17. The census of 1901 raised these figures as follows: Manitoba to

10, a gain of 3; British Columbia 7, a gain of 1; Northwest Territories 10, a gain of 6; Yukon 1—total 28. Following the 1911 census, these figures were again increased, and today the representation is: Manitoba 15, British Columbia 13, Saskatchewan 16, Alberta 12, Yukon 1. Total 57.

Thus while the representation of the five Eastern Provinces in the House of Commons decreased by 19 in twenty years, or an average loss of a member a year, the representation of the four Western Provinces and the Yukon has increased by 40, or an average of two additional members a year. And if the same proportionate increase in population in the West is revealed by the census of next year—as seems altogether likely, judging from the recent official estimate of Saskatchewan's population, which places it now at almost double the 1911 figure—the voting power of the West in the House of Commons will be enormously increased, while not only relatively, but actually, that of the East will be decreased.

The effect of this growing political power of the West in the national Parliament is fraught with tremendous possibilities in the shaping of national policies and in a probable very radical change in the financial and fiscal policy of the Dominion. This increased power in national affairs, coupled with the pronounced tendency of western people not to divide upon old party lines, but to unite upon great questions of principle and policy irrespective of former party divisions and views, clearly indicates that a new re-alignment is about to take place and that all former political conditions are due for a shake-up.

The incidence of population is, therefore, bound to have a profound effect on future Canadian policy. This will be true not only as between West and East, but is markedly in evidence within the boundaries of the old provinces. Ontario is becoming more and more an industrial centre, where the populations of the manufacturing cities and towns are growing while the rural population is declining. Quebec, too, is developing rapidly in an industrial sense, but in that province, unlike Ontario, agriculture is also expanding. In fact, Quebec is forging ahead of Ontario in more than population, thanks to the far-seeing and aggressive good roads and agricultural policies inaugurated by the provincial authorities. As a result, the natural resources of Quebec are being more rapidly and scientifically developed than are those of any other province at the present time.

Students of Canadian affairs, and those interested in our national development, may well follow with exceptional keenness the changes now being wrought in all national, financial and economic policies as the direct outcome of western development and growth in population, influence and political power.

## Minard's Liniment Cures Diphtheria.

May Be From Other Planets  
Discussing the mysterious signals described by Sig. Marconi as having been received in the form of interruptions of the Marconi wireless instruments, Sir Frank W. Dyson, astronomer royal, London, admitted that in his opinion it was quite possible to get waves from other planets. He was not prepared to go further at the present time, and left it to greater wireless experts than himself to describe the effects of such waves.

## Clear Your Scalp and Skin With Cuticura

After shaving and before bathing touch dandruff or irritation, if any, with Cuticura Ointment. Wash all of your scalp with Cuticura Soap and hot water, using plenty of Soap best applied with the hands. One Soap for all uses, including shampooing, bathing. Finally dust shaved parts with Cuticura Talcum. The Soap, Ointment and Talcum sold everywhere.

Livestock on farms can be most profitably increased through an expansion of Canadian meat export trade. An improvement in the quality of the live animal will be necessary if Canada is to get into a foremost place in the big European markets that are ready for our national products.

## Like a Tidal Wave Heart Disease and Nerve Troubles Sweep the Country

Probably at no period in the world's history have heart and nerve troubles been so prevalent as they are today.

The heart can't stand the stress and strain of this busy, bustling age, and the care and worry, the anxiety and activity of business life constitute a serious drain on the nervous system.

The business of this work-a-day world goes with such a rush that the stoutest hearts and strongest nerves break down under the strain.

On the first approach of any breakdown of the system Milburn's Heart and Nerve Pills should be taken. The reconstructive power of these pills on the heart and nerve system is simply marvellous.

Mr. W. A. Wright, Hopewell Ave., Ottawa, Ont., writes: "After suffering for some time with my heart, I consulted a number of doctors, but got no relief. However, I read what Milburn's Heart and Nerve Pills had done for others, who had the same symptoms and thought I would give them a trial. Believe me, six boxes cured me completely. Am feeling fine now, and can attend to my work every day. I can recommend your pills to anyone suffering as I did."

Price 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

A woman of experience says it is impossible to keep children or stair carpets in place without using the rod.

## Do Corns Lead To Cancer?

As yet this has not been proved, but interested parties will find nothing better for corns than Putnam's Corn Extractor, 25c at all dealers.

## A Keeperless Lighthouse

Small Beacons Have Greatly Aided Navigation in Alaskan Waters

Along the coast of Alaska, where it would be difficult to maintain reliable lighthouse keepers, there have been established many automatically flashing beacons, each of which can operate for nearly five months on one charge of gas. A lighthouse with its keeper, alone among the wildest of scenery, is always a romantically interesting mark of progress. A lighthouse without a keeper, however, is, perhaps, a still greater sign of progress, in that it frees many a man from the temporary necessity of staying where he might not want to be. At first some navigators were a bit slow in getting used to the quickly flashing lights. Because of the rapidity of the flash, one might hardly know whether he was coming to, or going from such a light. In the end, though, these small beacons, which cost only about \$1,800 each to install, have greatly aided navigation in Alaskan waters.

## Samples of Alberta Minerals For England

Alberta Natural Products to Be Put on Exhibition in London

Samples of the bitumen sands from Fort McMurray, natural gas products from the sands, gasoline extracted from natural gas, natural gasoline, crude oil, salt, gypsum, roofing material from the bitumen sands, some briquettes from Bankhead, coke from the Crow's Nest, and some other of the Alberta natural products were this week sent to Lieut.-Col. Obed. Smith, the immigration officer for Canada in London, England. These are to be put on exhibition at the London office and will be added to from time to time as the material comes to hand.

## UP A SINGIN'!

Tomorrow will be clear and bright, if you take "Cascarets" tonight

Feeling half-sick, bilious, constipated? Ambition way below zero? Here is help! Take Cascarets tonight for your liver and bowels. You'll wake up clear, rosy and full of life. Cascarets act without griping or inconvenience. They never sicken you like Calomel, Salts, Oil or nasty, harsh pills. They cost so little, too—Cascarets work while you sleep.

Leverhulme Favors Prohibition  
Lord Leverhulme, the British manufacturer, who has returned to England from a two months' visit to the United States, declared himself as in favor of the adoption of prohibition in Great Britain, through which, he said, enough could be saved to pay Britain's indebtedness to America within five years.

## STORMY WEATHER HARD ON BABY

The stormy, blustery weather which we have during February and March is extremely hard on children. Conditions make it necessary for the mother to keep the baby in the house. They are often confined to overheated, badly ventilated rooms and catch colds which rack their whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. This will not fail to break up colds and keep the health of the baby in good condition till the brighter days come along. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Women of the Bayanzi tribe of Central Africa shave the tops of their heads, while the men wear long hair.

Minard's Liniment Cures Garget in Cows.

She Knew Whom He Meant  
An architect remarked to a lady that he had been to see the great nave in the church.

"Don't mention names," the lady replied. "I know the man you refer to."—Houston Post.

## ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer"

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

## Keep the warmth IN and the cold OUT

Have a cup of hot Oxo every day. It will warm you through and through—fortify against fatigue—wrest off colds and chills—and keep you A.L.

## Alberta Glass Factory

New Addition Will Be Larger Than the Original Plant

Good progress is being made on the large extension to the glass factory at Redcliff, Alberta. The steel construction is completed and the building is well advanced. Experts are on hand to install the furnaces and leads, which when completed will be as large as any on this continent.

This new addition will be larger than the original plant, and is expected to be in operation some time in March.

The plant is owned by the Dominion Glass Company, and was originally established at Redcliff seven years ago.

For Colds or Influenza and as a Preventative, take LAXATIVE BROMO QUININE Tablets. Look for E.W. GROVE'S signature on the box. 30c.

A great many men reason in a circle; that's why there is no end to their arguments.

## The Sweet Cereal Flavor of Grape-Nuts

is not produced by adding sugar to this blend of wheat and malted barley.

The sweetness is due to actual grain sugar, self-developed by the processing and long baking of this great food!

"There's a Reason" for Grape-Nuts

## STONELAW U. F. A.

Stonelaw U.F.A. will hold their regular meetings as follows:

First Friday in the month at Minor Schoolhouse and the 3rd Friday in the month at Stonelaw Schoolhouse.

## SETTING THINGS RIGHT.

"I am told that you referred to me as an ogre."  
"The idea!"  
"Don't try to evade the issue, madam. Did you or did you not call me an ogre?"  
"Certainly not. I wouldn't be so unkind. I merely said your face threw my little Christopher into convulsions."

## Fur Shortage Rumored.

Short catches are being reported this year throughout the fur country of Northern Canada. A. Bassett, chief inspector of the Hudson Bay Co. Fur Trade Dept., said the other day that the catches received so far are the advance guard, sent out from the interior by natives in need of an immediate "grab stake." So far as he could judge, there will not be the absolute shortage of muskrat, which had been rumored, but rat undoubtedly would be scarce, as it had been for three years. Lynx, which scarce, might be expected to show a slight improvement over 1918, when it reached the lowest ebb since 1910.

## Airman Got a "Sub."

One minute passed, two minutes, four minutes. We had roared over six miles of sea, and still I could see the little fountain ahead.

Then I saw the submarine. She was a mile away—a big grey Pri of the U-class, long flush deck rising toward the bows, conning tower between bow and stern, two guns, one before and one aft of the conning tower, and a straight stem. She was shoving through the water at top speed, about thirteen knots, and above her bow was the little fountain.

It was caused by a thread of water running up her straight stem and leaping into the air about five feet. It glittered in the sun.

Two men were on the conning tower, but they did not see or hear us coming. We were attacking up wind and down sun. We read part of her number, U47, but the second numeral was blurred.

Forty seconds after seeing the U-boat Dickey pulled the release lever and dropped one bomb. He threw up his arm. I banked over and looked down. The bomb had detonated on the starboard side half way between the conning tower and the stern.

The submarine heeled slowly over to port. She stopped in her own length and began to sink.

Cuckney close behind me passed over. I saw a bomb burst on the starboard side right in front of the conning tower. Her decks were now awash. An explosion occurred in her bow and several smaller explosions between the stem and the conning tower.

By this time I was again in position and Dickey dropped a second bomb. The bomb detonated about thirty feet away from her. Only the very top of her conning tower was showing. And then she vanished.

The little fountain had been fabled. From Squadron Commander T. D. Hallam's new book, "The Spider Web," an account of his own share in fighting submarines in the North Sea.

Commander Hallam is a native of Toronto.

# Famine Conditions In Petrograd Are Terrible

London.—Petrograd is described as a city suffering from famine, cold, disease and robbery, in a report just made by Professor Zeidler, of the Russian Red Cross, who has investigated conditions in the capital.

"Owing to want of fuel, the capital is becoming a desert," he says. "In a few houses only there are still some inhabitants, and even these generally live in their kitchens. Famine conditions in the city are terrible. If the population had not already accustomed itself to feeding on what people in normal circumstances never eat at all, they would have no food what ever."

"The water supply has stopped owing to the want of fuel, and the inhabitants draw their supply from the Neva or the canal, or use melted snow. Spotted typhus and Spanish influenza with various complications have put an end to the sufferings of many unfortunate people. There are no medicines to be had at all. Only four hospitals are still open. Electric lights are permitted from five to eight p.m. only. Tram cars run at certain hours and on only routes needed by the Bolsheviks. Authorities are powerless to guard public safety. Gangs of robbers are at work in the deserted quarters of the city, carrying off all that may have been left after the searches made by the Red army."

## Must Banish Ex-Kaiser

Sir Auckland Geddes Says Allies Will Put Former Emperor on Trial

London.—Sir Auckland Geddes, Minister of National Service and Reconstruction, speaking at Andover, said the government intended to put the former German emperor on trial and carry out whatever penalty was provided. But, he added, if Holland definitely declared her intention on the basis of international law, so as to make it a Dutch trial, then he must say the former ruler could not reside on Dutch territory in Europe, and Holland must put him on some island belonging to her outside of Europe.

## Set Profit on Woollens

New York.—Arthur Williams, federal food administrator, ruled that 16 per cent is to be the maximum profit for woollen merchants. One firm that made a profit of \$1.85 a yard on material purchased for \$3.55, was given twenty-four hours to buy the stuff back, resell it at a profit of not more than ten per cent, and pay their former victim \$1.25 a yard.

## DOCTOR URGED AN OPERATION

Instead I took Lydia E. Pinkham's Vegetable Compound and Was Cured.

Baltimore, Md.—"Nearly four years I suffered from organic troubles, nervousness and headaches, and every month would have to stay in bed most of the time. Treatments would relieve me for a time but my doctor was always urging me to have an operation. My sister asked me to try Lydia E. Pinkham's Vegetable Compound before consenting to an operation. I took five bottles of it and it has completely cured me. I feel like a new woman. I tell all my friends who have any of these troubles that Lydia E. Pinkham's Vegetable Compound has done for me."—NANCY B. HARRINGTON, 609 Calverton Rd., Baltimore, Md.

It is only natural for any woman to dread the thought of an operation. So many women have been restored to health by this famous remedy, Lydia E. Pinkham's Vegetable Compound, after an operation has been advised that it will pay any woman who suffers from such ailments to consider trying it before submitting to such a trying ordeal.

## Finances of Count Hohenzollern

Protest Is Entered Against Plan to Restore Exile's Property

Berlin.—Efforts to keep intact the fortune of former Emperor William are condemned in a long editorial printed by the Vorwaerts. The newspaper says this movement is in the half of a "man who ruined Germany."

"The bill now before the Prussian diet represents a masterpiece of old Prussian efficiency," says the editorial, "for the financial status of Count Hohenzollern is placed on the basis of his right to property, while nothing is said as to his guilt on the political situation. It is perhaps, well to remember that the national constitution gives the government the right to seize private fortunes."

## Wilson Found Guilty

Former Member of R.N.W.M.P. Sentenced to Death for Murder of Wife

Saskatoon.—John Wilson, former member of the R.N.W.M.P., was found guilty of murdering his wife, Mary Wilson, by a jury in King's Court Bench here. Chief Justice Haultain immediately sentenced him to die upon the gallows at Prince Albert jail on April 23.

The jury deliberated one hour and fifty minutes. On receiving the verdict, Justice Haultain asked Wilson if he had anything to say. Immediately his appearance of apathy, which has featured the trial, passed and, jumping to his feet, he grasped the front of the docket and replied: "Yes, sir, I wish to protest against the low-down, dirty methods of the policy in taking advantage of my condition of mind and body to obtain certain information from me."

Sentence was then pronounced and Wilson was hustled from the court, and was in his cell four minutes after the word "Guilty" was rendered. Wilson's counsel offered no defence. The prisoner was physically unable to stand the strain of going into the box, he told His Lordship.

## Help For Vienna Children

Italian Trains Arrive to Take Away Those in Need for Remainder of Winter

Vienna.—An Italian train has just arrived to take 2,500 children of Vienna to Milan for the remainder of the winter. The train brought several carloads of badly needed Red Cross supplies.

The departure of these children completes the tenth consignment sent to Italian towns to recuperate. Virtually all the towns of Northern Italy have expressed willingness to receive some of the children into families free of charge. Only lack of transportation facilities prevents a wholesale exodus of children from Vienna to Italy.

Thousands of children, too feeble to undertake the long journey, have been gathered in hospitals, where they will benefit greatly by the medical supplies just arrived.

Saw Socialist Spit on Flag  
Albany.—A sensation was sprung at the trial of five suspended Socialist assemblymen here, when Ellen B. Chivers, a girl of 18, testified that she had seen Charles Solomon, one of the accused, spit on the United States flag during the war. She said, she volunteered her evidence as "the duty of any American." "I would not let you wipe your dirty feet on my platform," was another remark attributed to Solomon.

Offer Award for Flu Cure  
Denver, Colo.—The Denver Post announces it will pay \$25,000 to the physician finding a cure for influenza. The money is to be paid after the cure has been approved by the Rockefeller Foundation and the John Hopkins University, Baltimore.

## G. T. Shareholders And the Government

Sir Alfred Smithers Convening Meeting to Ratify the Agreement

London.—Sir Alfred Smithers, chairman of the Grand Trunk Pacific Railway, is convening a meeting of shareholders for the 19th instant to ratify the agreement between his company and the Canadian Government. He has issued a circular stating that the board of directors, after long and anxious consideration, unhesitatingly advises acceptance of the agreement. The circular says:

"The state of railway finance and working brought about by the war shows features common to the United States, Great Britain and Canada, but the United States saved shareholders from loss by guaranteeing the companies an average income for three years. The British Government at the beginning of the war saved the British shareholders by guaranteeing the income for 1914, but no such assistance was given by the Canadian Government to Canadian railways."

"All through the negotiations the Canadian Government pressed the liabilities of the Grand Trunk, for the Grand Trunk Pacific was the chief reason for acquiring the Grand Trunk on very moderate terms. It can be at once stated that, leaving out all other considerations, the increase of expenses, without an adequate increase of rates, has greatly aggravated the Grand Trunk Pacific position in relation to the Grand Trunk. When the Government of Canada becomes the owner of the great system that it will have when it acquires the Grand Trunk system, it can speedily bring such readjustment of rates into being as will permit of a fair return on the capital invested. The whole cause of the present difficulties of the Grand Trunk is its being required to carry on an ever-increasing business under the present phenomenal operating costs, without a corresponding increase in its rates, and that condition cannot be altered until the railway commission will allow an adequate increase."

## Condemns Present Dental System

Chicago.—The American Academy of Dental Science condemned gold crowns on teeth as unsanitary and productive of diseases. The organization also condemned the removal of nerves from decayed teeth preparatory to filling.

One delegate declared the present methods of extracting teeth needed to be changed. Extractions in cases of persons over 20 years of age should be made in hospitals with the same treatment accorded other operations, he said.

## Airdromes for Alberta

Calgary.—The Canadian Air Board will establish two airdromes in Alberta, one in Calgary with 12 machines and one at Peace River Crossing. The airdromes are to be used for instruction and government work, according to Major McLaren, of the Canadian Air Board.

## Found the Remedy Women Look For

DODD'S KIDNEY PILLS RANISHED HER BACKACHE

Mrs. Alice Roberts Felt Like a Different Woman After She Had Used the Great Canadian Kidney Remedy, Dodd's Kidney Pills.

Hathersage, Alta., February 9.—That Dodd's Kidney Pills are the remedy that dried women with aching backs are looking for is the lesson taught by the experience of Mrs. Alice Roberts, a well-known and highly respected resident of this place.

Mrs. Roberts felt tired all the time. Her backache was terrible. She used Dodd's Kidney Pills. That is why she says:

"Dodd's Kidney Pills did wonders for me." "My back ached so that I could hardly do my work," Mrs. Roberts continues. "And I felt so tired all the time. My heart also bothered me."

"Six boxes of Dodd's Kidney Pills made me feel like a different person." Ask your neighbors if Dodd's Kidney Pills won't cure sick kidneys. Cured kidneys strain all the impurities out of the blood. Pure blood means new health all over the body. Thousands of Canadian women recommend Dodd's Kidney Pills.

# List of Huns Wanted by Allies For War Crimes

## Canadian Delegates Had Rough Journey

Arrived in Paris After Conference Had Been Adjourned Until March 2

Ottawa.—Canada's labor delegates to the Paris conference had a tempestuous trip across the Atlantic, which delayed their arrival until after the governing body of the International Labor Office had adjourned on January 28, to meet in London on March 2. F. A. Achard, deputy minister of labor, has cabled to Senator Robertson that a number of important items on the Paris agenda had been laid over to be taken up at the London meeting.

The Canadian delegates found that they would be unable to secure homeward passage for at least forty days. Under these circumstances the Government has cabled Mr. Achard to remain over, so that he can take part in the London meeting. It is understood that Tom Moore, president of the Canadian trades and labor congress, will also remain in England.

## Want Government to Sink Oil Wells

Winnipeg.—That the Dominion Government should spend at least \$500,000 in sinking wells in the Athabasca oil fields to provide permanent employment for returned soldier citizens, thus obviating the necessity for charity doles, was the effect of a resolution passed at a meeting of the central branch of the Great War Veterans' Association.

Major G. W. Andrews, D.S.O., was the chief speaker.

## Got a Child's Coat By Dyeing Garment

"Diamond Dyes" Help Make New Outfits for Youngsters

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods,—dresses, blouses, stockings, skirts, children's coats, feathers, draperies, coverings,—everything.

The Direction Book with each package tells how to diamond dye over any color.

To match any material, have dealer show you "Diamond Dye" Color Card.

## Another Excuse Offered

Hun Writer Says Sentencing of Ex-Kaiser Would Endanger Republic

Berlin.—Karl Kautsky, who investigated the causes leading to the war, writes in the Berlin Volks Zeitung: "The passing of sentence on Wilhelm (the former German emperor) before an enemy court would not alleviate the danger of a counter-revolution, but would add to it. Wilhelm would be made a martyr in the eyes of the German public, to whom he would appear as a man sentenced, not for this crime or that, but for being a German. His popularity would suddenly soar upwards tremendously and he might become a dangerous contender, in opposition to the German republic."

Herr Kautsky is of the opinion that the sentence should not go beyond coercing Holland into appointing a residence for the former emperor on some island where conspiracies with his German friends would be very difficult.

## U.S. Manufacturers In Majority

Ottawa.—An interesting comparison of the number of outside manufacturing firms having branch factories in Canada has been compiled by the Canadian trade commission. This shows that while there are scarcely half a dozen British manufacturers with branch factories here, there are some 530 American manufacturers, whose products range from farm machinery and tractors to packing house products.

Berlin.—Baron Von Kurt Lersner's refusal to accept the allied note regarding the extradition of accused Germans was not in accordance with instructions he had received from Berlin. The German government had requested him to receive it, but he asked by telegraph for permission to retire and his resignation was immediately accepted.

Baron Von Lersner, it is explained, was relieved at his own request. The note of the entente concerning the surrender of accused Germans was handed Baron Von Lersner on Tuesday, and the German representative, although he received last formal instructions simply to transmit it to the minister of foreign affairs, returned it to Premier Millerand, declaring his conscience would not permit him to be a participant in the surrender of Germans to the allies.

Von Lersner demanded that he be relieved from his functions and his request was immediately granted. The accusation against Crown Prince Rappach of Bavaria is the deportations from the Litz district; the Duke of Wurttemberg is charged with massacres at Namur; Field-Marshal Von Kluck with the assassination of hostages at Senlis and the massacre of civilians at Aerschot; Field-Marshal Von Mackensen with the pillages in Rumania; Baron Von Der Lancken with the murders of Captain Charles Fryatt, the British sea captain executed by the Germans, and Miss Edith Cavell, the English nurse; Admiral Von Capell with the submarine outrages; Field-Marshal Liman Von Sanders with massacres of Armenians and Syrians; Gen. Stenger with issuing orders to take no prisoners; the Niemcey brothers with cruelties to prisoners at the Holstenden camp; Major Von Goertch with cruelties at the Magdeburg camp; Lieut. Rodiger with cruelties at the Rublen camp; Gen. Von Cassel with cruelties at the Dohberitz camp; Gen. Von Manteuffel with the sacking of Louvain; Lieutenant Werner, Captain Valentiner and Captain Forstner with submarine outrages; Gen. Von Tesma with the execution of 112 civilians at Alton; Gen. Von Ostrowski with the pillage of Deynze and the execution of 103 civilians and Major Von Buelow with destruction and murders at Aerschot.

Major G. W. Andrews, D.S.O., was the chief speaker.

## DON'T LOOK OLD FROM HERE UP

A little "Danderine" checks ugly dandruff and stops hair falling

Get a small bottle of "Danderine" at any drug store for a few cents, pour a little into your hand and rub well into the scalp with the finger tips. By morning wash, it is all of this awful scurf will have disappeared. Two or three applications often remove every bit of dandruff and stop falling hair. Every hair on scalp shortly shows more life, vigor, brightness, thickness and color.
